

Rogue Submarine Newsletter

Volume 12

2nd Quarter 2018

Rogue Readers,

1. Free Stuff!!!
2. Audio books update
3. Rogue L
4. Box sets
5. US Navy Submarines Update
6. John Recommends...

1. Free Stuff!!!

I trust you enjoy the theme of free stuff. I have a bunch of coupons for **free** Audible audio books. So... I'm making them free to my subscriber list, which is you!

I *think* I've automated this. So, click [here](#) for your free Audible coupon. Email me if it doesn't work, and I'll get you a code within 24 hours: john@subthriller.com

2. Audio Books Update

[Paul Christy](#) finished [Rogue Hunter](#), which is available on Audible, iTunes, etc. We're finishing *Rogue Invader*, which is about another month from publication.

3. Rogue Kingdom

Book #11, *Rogue Kingdom*, is published and joined its ten older siblings as a best seller. Thank you all who have already purchased it or borrowed it on Kindle Unlimited.

If you enjoyed it, please review it with just a few kind words. It makes a difference.

The mercenary fleet gets jolted hard in this one. In fact, it takes such a hit that I'm still assessing options on how they're going to recover in *Rogue L*.

4. Box Sets

I published box sets of the Rogue Submarine series eBooks. By being on this mail list, you get advanced notice.

[Books 1-3](#)

[Books 4-6](#)

[Books 7-9](#)

Each box set saves \$2 versus buying its three books individually. Kindle Unlimited subscribers can borrow the set of 3 books but use only 1 of your 10 borrowing slots.

5. US Navy Submarines Update

Congratulations to the USS *Colorado*, SSN-787. The latest *Virginia*-class submarine joined the fleet March 13. Per my count, that's fifteen submarines of the class.

6. John Recommends

I thought I'd start pointing you towards other good authors. As a rule, I'll only recommend books I've read cover to cover. Today's recommendation passed my tests for pacing, character depth, technical accuracy, and intrigue. Therefore...

I'd like to recommend a submarine novel by a friend of mine - a Top-20 bestseller at Barnes & Noble and Top-50 nationwide. The eBook version is being reduced to \$2.99 during April and May. Below are some industry reviews and links to the eBook version. I've read it and really enjoyed it, and I highly recommend you give it a read!

The Trident Deception - "The best submarine novel since Tom Clancy's classic - The Hunt for Red October!" —Booklist

"Campbell does an amazing job, balancing character interaction with high-octane action, all while keeping the technical jargon to a level understandable by nonmilitary readers."
