Is this the last book? It is, for now. So, if/when there's a Book #13, you'll be the first to know.

5. More Box Sets

Box sets of eBooks save you \$ when purchasing or simplify your life when borrowing.

[Books 1-3](#) [Books 4-6](#) [Books 7-9](#) [Books 10-12](#)

Or get the entire series: [Books 1-12](#) for \$49.99 (great for borrowing). Your best discounts are buying the four three-book box sets.

6. US Navy submarine update

I'm not saying much, since a picture's worth 1,000 words. Here's a cool video of an American submarine on wheels: [USS Delaware launch](#).

7. John Recommends

As a rule, I'll only recommend books I've read cover to cover. I recommend a military thriller by George Galdorisi. His latest book, [For Duty and Honor](#), is excellent. This is U.S. carrier-based excitement, but surface ships, subs, and human operatives play major roles. Enjoy!

Thanks for reading! - John
